

Copyright Fact Sheet

Copyright must be considered whenever creative works are used in church services and activities. CCLI exists to help churches discover and use a vast range of copyrighted works, confident they are acting legally.

About CCLI

CCLI (Christian Copyright Licensing International) was established in 1988 to provide a copyright solution for churches wanting to reproduce the words of hymns and worship songs. Now trusted by more than 250,000 organisations worldwide, CCLI offers a range of licences and resources that enable churches to legally use a wealth of music, video, and multimedia in their worship and ministry, without the risk of copyright infringement.

CCLI is here to provide guidance and support to help simplify copyright. With systems in place to ensure that copyright owners are fairly rewarded for the use of their work, CCLI is highly-respected among the world's leading copyright organisations.
